Ms. Judith E. Ayres
Regional Administrator
U.S. Environmental Protection Agency - Region IX
215 Fremont Street
San Francisco, California 94105

Dear Ms. Ayres:

Five copies of revisions to the Maricopa County Air Pollution Control Rules and Regulations that were adopted by the Board of Supervisors on July 2, 1984, are being submitted as a revision to the Arizona State Implementation Plan pursuant to 40 CFR § 51.6.

The revisions amended the following Rules:

A. Rule 2, Definitions.

Insignificant changes were made to four definitions. The terms "energy recovery equipment" and "volatile organic compounds" were added. The definition of "non-point source" was modified, and the term "significant levels" was deleted.

B. Rule 21, Installation Permits.

Requirements for obtaining an installation permit were amended. Because very few major sources are located in Maricopa County, the impact of this revision is minimal.

C. Rule 28, Permit Fees.

Permit fees were increased to reflect current operating costs.

D. Rule 31, Emissions of Particulate Matter.

Forty percent emissions opacity is now applied to non-point sources. A very small decrease in particulate emissions is anticipated from this action.

E. Rule 36, New Source Performance Standards (NSPS).

New NSPS categories will be adopted by reference, even if there are no corresponding sources of those categories in the County. No major change is anticipated.

The Department of Health Services is An Equal Opportunity Affirmative Action Employer.

F. Rule 37, National Emission Standards for Hazardous Air Pollutants (NESHAPS).

The County shall enforce new NESHAPS regulations as they are delegated, rather than when the County revises its regulations. No major change is anticipated.

Other rule changes consisted of the removal of dates for clarity.

Notices of public hearing, certifications of publication, summaries of the public meetings, and mailing lists are included in the revision package. Additionally, five copies of the Rule Evaluation Form that were completed by the Maricopa County Health Department are enclosed.

Your consideration of our submittal and its approval will be greatly appreciated.

Sincerely,

Lloyd F. Novick, M.D.
Director
